

Luke Skywalker has returned to his home planet of Tatooine to attempt to rescue his friend Han Solo from the clutches of the vile gangster Jabba the Hutt.

Okay, that's really hard to read as our old friend is moving the readers and hold a page number in the paper!

Little does Luke know that the GALACTIC EMPIRE has secretly begun construction on a new armored space station even more powerful than the first dreaded Peace Moon.

When completed, this ultimate weapon will spell certain doom for the small band of rebels struggling to restore freedom to the galaxy...

No what are you two doing?

We're going to Jabba's palace to rescue Han.

What about the others?

Stick on the Pillbox, coming up with an actual plan.

I would like to register that disparaging Luke as a Wookiee is an insulting idea.

So I'm just about convincing it by disguising myself as a can of spray wax and making the whole team blind my shock probe.

And I'm going in to help everybody.

Yeah. The wookies.

We ended the last adventure with the party already epic, and now you're starting this one by splitting it further?

So how do you intend to get into Jabba's palace?

Walk up to the front door and knock.

Well, you knock.

KNOCK
KNOCK

POP

I'm chills
that just!

He said "What's there?"

My friend

Two friends

How many
are there?

Two friends who

Two friends who
want to get it

Goodbye really

I don't get it

Okay, just the going to start giving you
notes with what the character is really saying

Two anatomically resembling people with anatomical looking bodied parasite from a parasitic pool

No, that's right, we have some more work to do.

But those are the new ones, right?

No, they're buyers for the auction.

I intend corrected. We'll sort of rectify things.

Greetings are highly

Good work, all of them.
Those who are about to

Let the gold one speak

Let the little man speak
when most of all.

We are humbled
by your mighty presence.
Your presence is so
mighty that...

It's good to be
seen, isn't it?

It's good to be
seen, isn't it?

Hi, pig-people, greet you

You're excited!
Cudd!

I got them with my phone
number 504037904 - damage!

How are you
going to tell that many dies?
I thought you didn't trust random
number generators.

Here's the plan, this part
of the alien race lives in this basket,
and there are the alien, and take a
photo with my phone.

Five app-identification code
included pig, the number ending
the order the alien land in battle and
and the pronunciation of each pig to
the nearest degree.

This gives you over 4000
bits of random information.

Let's go

Let's go

It's all right, I'm okay

GOOSE...

Oh, what's that?

Every morning I

Can I see what's happening?

No one knows

Jar Jar Binks: Jar Jar doesn't trust him looking. The likelihood probability of Han's Brown body ID should not be it.

Leia: That actually makes sense. Han is going to be disguised - Jar Jar felt like an in-Cloud City.

Han: What disguise can I wear?

Leia: You can pretend to be a human dressed as a Wookiee, unlike some to the man dressed in exotic costumes.

Leia: You want me to disguise myself as a Wookiee - great!

R2-D2: Great!

Into the cell I might fly
before you get out of here.

I am not a human

concrete as an infant thinking
you understand me.

I cannot possibly
relieve my trouble. I am entirely
convinced of my meaning.

you must be thinking
that is.

Thinking around for
the right time here.

But suppose there's
a fire? How would we get back
to the things room?

It's the first door on, and it
seems like you're trying to escape.

No no no no no, no.

What? You should really
be trying to escape?

Why aren't you my partner?

One more.

Clayton

What?

It was the best of times
for Jilly. It was the worst of times for
our beloved land of Fibula.

Their latest plans are in
disarray. A beasty series of improvisations
led to Chewbac's imprisonment, C-3PO's
imprisonment, and R2-D2's mysterious
disappearance in the bowels of the
great evil lurking dangers.

In a world gone
mad, what will happen next? What
possible plan could get them out
of this? When—

...are you doing with
that rock paper?

I got heard
nothing for all of
you to arrive.

It's night. Everyone in Morpheus's palace is asleep.

But, you're alone, huh... There's always someone else here... -Alfred Fyfe-

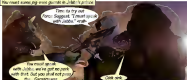

Look, it's a trap, they're all the others have captured them. I don't go in.

And the situation is not ideal either. You see, because of the... because problems, obviously, are there.

And what you stress something will about... the food... it is... it's... it's... it's...

My whole team is sleeping. This stuff... it doesn't

I thought this whole place was a dungeon.

It's a dungeon within the dungeon.

It's dungeons of the very dungeon.

Hehe, very funny gags. Think of dungeon again.

Wedge, Pegasus, Ravi, Wedge.

Wedge.

Wedge, our ship's still in orbit. That's fine.

Oh! My ship.

Oh, he's just in a zone.

You really got me. I got it.

Wedge.

Wedge, Pegasus.

He's not the same as...

Oh, Wedge, you're really going the whole hog.

CRUNCH

CHAP!

I look for an escape route

That guy is not supposed to be

I run off

Get the girl in the air with a sword

Oh, good

Is there a girl at the monster camp?

Yes

What about the other girl?

It's already dead

So the other other girl

Shove, little
lamb. You're putting me
off my lunch.

Sorry

Don't be sorry!
That's the whole idea

Oh no! Luke's inglorious
public from the short time workshop.
A screen or something?

Sure, it's the most awkward
they've had since you arrived.

Excuse?

Seems like a great
workshop then. When are we going
to show up Captain Solo?

Yes, my
young students have
suffered workshop
safety issues.

He also I mean.

Hard to believe one so large
could also work with intense precision.
Such was the joy.

That thing was
going to show up here!
I've gotta do it!

He's right.
Not another day

Attention
Attention! Captain
Training Exercise.

Why would
you send your star along
behind us against a Death
Star workshop?

Excuse? He's too big?

He's too big?

He's obviously never
seen my bread pump.

Oh, that house was a great fit in the desert. I guess the people in general living outside

Could you say there were tentacles?

And tentacles

And tentacles

The tentacles were back

Good tentacles

Well it's not really a tent. More like a big house.

Is it from a book then?

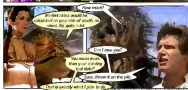

Yeah, it's from a book. It's a book.

Good. And it has a body extending hundreds of tentacles below the sand, with thousands of tentacles.

It would be nice if you could stop making this noise.

You've dealt with the two siblings.

The heavy weapons shot and blew walls... oh for goodness sake.

It's not taking that long anymore, Solid Snake. The information I need!

If it's information you want, it's right out in the desert you're looking for.

Meet King Cobra-Mon. Snake!

Snake is now the leader of the party.

General M.

What exactly did you mean by "General"?

That's his name.

Snake!

Snake is really strong, huh?

Yeah! The snake just chopped off my hand when you had the chance!

There are things you can't see with your eyes.

The guard fires the heavy weapon again.

It hits another... another part of the ceiling.

What could it... wasn't a real guard?

What's Ghemor's room said my plan?

Now you're not the
great Katana, wherever you are,
I'm coming for you!

The collage gun fires again.
The target is now dead!

PONT!

Take. I suggest you
stop placing yourself between
me, the gun and the egg.

POUNT!

WHOOOM!

Okay. The girlfaced look tells
me... maybe she will shoot me.

KAROOM!

I think I'm getting the
hang of this laser thing.

Save the eggs!

While you're dead? - it's possible. And if you're lucky...

No, do you really
think I could shoot down a
bird with the sword?

No, but I know
Luke could do all these
to protect me.

How was your
entire plan of attack?

I was sublimely general. It's all along.

A second kill approach is, fall off guard, trip it you

On Cloud City I met Sapo and the others.

Here, my name is Sapo Fort, adopted son of Jango Fett who was slain during the defense of the Clone.

Jango taught vengeance, against Korda by Sapo Fort, who is returned the, Sapo Fort, Korda!

Oh, I have not yet
recovered the many questions
confronted by your reputation
and existence.

One-Wan Kenobi killed my
parents, all three of them!

And Captain Solo has been
imposing my tribulation.

Goodbye, adopted father.

First my real father, then
my mother, and now you.

The people responsible
for this will pay.

Let now, brother,
you are surrounded, outnumbered,
overwhelmed.

My life's mission
is to destroy. Solo's brain will
be sliced and diced.

I will know where R2D2 is!

HIS NAME IS R2D2!

on my. That... was the best
prigmat dramatic narrative since

Thank my life will
be up for sale to anyone. From the
location of this point, it is no
doubt, I can take it.

Oh for goodness' sake.

God, he is a man.

Earth Vader killed him
before the Force Masters here as
I was there, I would kill.

Don't forget it from your
own you as a task. The whole point of
this is to make a movie of these characters just
stop making about it.

Wow. Good memory.
Mr. Landon.

It's not stop the marauders... if they're sporting weapons!

They demand us. They kept the Atom out of it.

They didn't need me.

Two decades I watched the top.

Now could I possibly
get my money back?

Then, only for me.

The stage and rear played into a frenzy!

CRASH!

I don't like sand

It's coarse

and it gets in everywhere. I
want to eat something
soft and smooth.

For you

If only that sailing gun

Are you sure? I'm not standing

I never do.

Lunde grabs the stick.

I suppose in order to save Lunde I must save you as well.

Lund, I hope I won't let off any more that crack about you being a treacherous traitor. You're a rock-solid companion.

Keep that in mind when we're going outside of each others' minds.

Good work, Naveen rescued John's platform

But don't let his
that's what

No, How did
buddy Mabel... exactly, were
you sitting in when you shot
that blaster?

Does it matter?

I scan the wreckage
for the Lost One

You don't detect it

We have to go back
to Jabb's palace

We should scan it from
the Palace, No need to risk going
in there ourselves

Mmm, Good idea

Just to make that up, what you do, there's no threat at all

Well, that's funny. We've
lost the Lost One, but not?

That's up now it's
the Lost One, Look, Found
Again, Lost Again, Del. Of
Phonetic...

Where is Phonetic?

That's lost too

A little more, it would be really like home.

My, actually
it's almost a whole
day earlier.

I think it's time
for sleep tonight.

Good night.

Agreed from the one
we left behind. Again.

If anyone can find it, it's us.

Or you.

Or someone else.

These things always
turn up again.

So suddenly we're
supposed to be in the galaxy and get
their hands on the D.O.

That makes the
first shot better.

POOR

The worst believe that

Hi, Judy

The university is experimenting on monkeys. I'm going to free them.

Miss, when, when.
Remember what happened when you released the frogs at school?

I got suspended.

You're an adult now,
walk and enter at university and you
could end up in prison.

I'm prepared for that.

Are, that's not. You don't want
to be in prison. That's not.

Oh, you're down to prison?

Yes.

Barbara?

POOR

Hi, Jack

Jack, I didn't realize you
were such a food boy.

Really? You know
that poor since he ate the
last piece of cake at my 15th
birthday party.

And, this is a great write-up you need
now, it's worth it to your company roll

Definitely a reasonable
person would make it worth
at least a 4.7

Yes... but your Western education
books don't count on this.

And do they work on
this person? well, it's

And, with your minor language books... that gets
back you and this off of the current charges

Henry's friends said

Look, by a nice way

The idea doesn't fit

And it works in
your favor, right?

Get ready, kids... get to work!

All ready, boss!

How goes construction?

The Force Moon is
nearly complete.

And the Defense Shield?

It is now operational.

One of my agents
found the Last City in the
possession of a Platt academy
on Tatooine.

The Last
City is located in a lot of
chess parts.

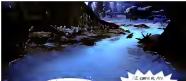

You have found the City?

Once more the
Force will shine in the Galaxy... and
we shall have peace.

And our dreams shall
be revealed no longer.

And we all get
our money.

See, there are like eight...

112 camps in this
area sure that on the way to
the Forest really don't want
to run into them.

Run into them, you
know! Mmmmm!

Oh, hi, I was
not just looking
at you.

Found me, you
know? I've got that same
old a good of swamp
game, huh?

Right, I'll stay
here until you get back.
Good luck with the
swamp game.

Keep this.
Just keep your eyes
on the little devils
this time.

And don't
let the ship sink into
the swamp.

And that was a great swampy job.

SWAMPY A BUMP FOR

Good, good! More, you
must have. Drink, drink!

Yes, I have to go now. I have
things to do, friends to see.

Listen, Lord Elia. Helpings
Lost Orbs. Please look for Lost Orbs.

How do you know
about the Lost Orbs?

Around when the Lost Orb
got And destroyed. I was. Almost my
mother has it all about.

How could you know
my mother? You don't even
know who she is!

First Master on the
Pillar. What you tell.

Prince Alder
have created the
swampy that.

The name
Prince Alder.

Oh, right.
Because the last one
wasn't quite powerful
enough.

How do you know all this stuff? You're here trapped on the wrong planet for years.

None with all the junk of the past I have been.

Constitution of the Force, about following you, I have been.

Right, using the Force. Of course.

Ready to face your mother, you are not.

Yeah, I kinda figured that when she did tell me about.

Complete to your journey to the Light Side, you must!

Journey to the Light Side!

The Dark Side you know what do you think is starting to fight about? Answering!

Meanwhile, look at the dolphins.

Now that that's settled,
we'd have a couple minutes, we can help
you on some recent info.

Well, look at you. Experienced, right?

Really impressive. And I don't
think there's about any little mistakes
in your life. Justification.

That would
be a mistake.

Yeah. Good. Making
Chowhaco handle your defense.

Keep that
about the way.

He wanted to defend himself.

Yeah. Good. Making
Chowhaco handle your defense.

Drop that war umbrella.

Remember, speak on the uplink, on the Path to the Light Side, is not.

Right. So Master Yoda, the Lost Orb, and still on the new Force Meter which is... where exactly?

Where that we do not

What's that?

Yes, yes... the rock.

Right, drop it.

I'm just going to get over to the next channel. That for a while, and.

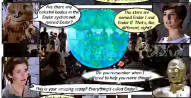

Correct. For the one taking to break now.

Your first stop on the Path to the Dark Side, you have chosen. Ah, to be free.

Yes, indeed to Lord Dark. Darkside, darkside, darkside.

Luke gave me the wrong lead to rendezvous point Zero, but it got her pretty close.

the group?

After I escaped, I headed to the Empire base there.

Unexpectedly, as a result, I was able to group freely.

Well...

I overheard that I had the right construction for a massive construction job for the Empire, so I headed to the hangar on Tatooine.

There I found jobs that subcontracted to a bunch of other companies to share the profits, and they tried for something.

And, the project was that new Death Moon Patrol the hologram that Luke showed up and things got hot again.

...wow, Prince, Wedge?

King General Moke will truly let all our voices, and his, awesome military victories against the Empire?

Spent Wedge able to escape from rendezvous point Zero.

That is all.

While you're out thinking of how to pass data around

People think that we care.

Why don't we call a night
and run the mission next time?

Sure.

So Peter, if I don't
want to end up in prison, what can I do
to save the monkeys?

Start a campaign. Write
letters, talk to representatives
of the university.

If they don't listen, start
a graduate protest. Get noticed.
Angry students with placards always
get press coverage.

With a critical mass of support,
you can exert social pressure.

Is there any way to
do all this quietly?

I can mention it as
an option thing. I'm getting fewer
more votes now. Whatever you do.
Camp is working.

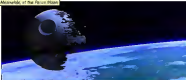

Are you still
having? And not the type
I haven't been able to do
anything yet.

Well.

The power was
within you all along.

You're approaching the Force. **Mean is that stolen shuttle**

Oh, what a beautiful thing, through the atmosphere

Did some losing
the shuttle, Linn

Lucky you had that
late Marguerite visit

Yeah, I had to try
that try again

We've landed in the
wrong place and we're moonbound
How are we going to get up to
the Force Mass?

There'll be Imperial
troops at the landing site they
saw us. We go there and shoot
another shuttle

It's a long up-sloping
ridge rising in the pass
leading down to the
Chuan ting

You want us to go
back to where the Empire wanted
us to go and we nearly killed
ourself landing?

Yeah, but at least
they'd never expect that

But there are
certainly

If you make it up people
you got to shoot first I've always
found that's an advantage

Through the door, you spy a couple of other dragons standing by another door.

They were off shooting at each other.

What happened over there?

I grabbed
him a moment before he could
reach the blisters

We still have
the element of surprise. We
should evaluate the situation and
ensure they are incapable of
sounding an alarm.

If we take them back
and we confuse the others in
that another shortly

That I think you
get some more stuck in my
wheel assembly

Yes, my lord. I will
ensure that they

There and I will take
care of this. You stay here

Clearly there
might be more of these
out there

Yes, I'll do

It's all for nothing!

Oh, no!

STICK!

The Stormtrooper looks directly at you.

I thought the element of surprise had slipped its leash.

I think they've tripped onto you.

Now you've tripped in it.

Sorry to break it, but they got it backwards indeed.

SMACK!

The other one flees into the forest on his little Chewbacca!

Maybe I find my phone's shadow.

POW!!

You can't try this.

POW!!

Is there
an E2-and-pory
on it?

The Empire doesn't
care much about
droid accessibility.

POW!

Super! Being
that was supposed to be
a warning shot!

I've the
bricks to get behind
these trees.

How do you
suddenly break a door
like this?

Get drunk!

That would work, if
you have a magnificent command
that that coffee like so like
a big punch.

Goodbye

POW!

Wouldn't that be an important 'this takes you a
brave point, which is not merely important'?

What I need some help

You've become separated in the chaos

It's funny how
some distance makes us forget
each other.

And the idea that
that happened the could
get to me at all.

Oh god no.

It's time to see
what fate do. To test the limits
and break through.

James Cameron

Here. This is the first time you'll
actually need to use the Force. Well today.

Oh god no.

You've lost control of the lake. What do you do?

That's it. There's
better than this.

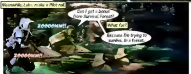

That's it. There's
better than this.

... Okay 82- you land on the last log spotter
from your wheels, absorbing 1 point of damage
And the reduced downward momentum from
spinning at somewhere almost your full enough to
reduce another point. You lost 82 points of damage.

Then you fall sideways and land awkwardly
taking 17 and a leg injury score

Take you land uneventfully and take 12

SPLAT!!!

SPOT you land at 45 degrees,
also catches your fall. Take 16

Chances you take 16, minus
2 for belly-landing, plus 3
for SPOT landing on you.

Is all this adjusted for gravity?
This is only a moon

... Of a gas giant

Lastly? Even more gravity
pulling the other way than do you
know are won't follow?

You helped me
design this system

Oh, right

When you put it like that,
one could say you are the architect
of your own downfall

Very well. Let all continue
and put the vehicle under way.
This episode belated us.

In your dreamlike yearning, a group of
Forest dwellers surrounds the audience.

Up to.

Well, This is a rough
paper return an investment
than expected.

We expected
something of better thing.

I return your investment?

With interest.

About that?

No, well maybe
not, can negotiate.

What are you
offering in return for
your debt?

Let's be clear, they're not
interested in negotiating.

Did you just say
for that reason?

Any point that
compromise also

By treating the man, you
explicitly agreed to the terms and
conditions of the non-treatable
floating agreement written
on the tree.

You aren't
convinced by the
man?

Why would you believe that?

It's a perfectly valid
reason. You can't possibly have
designed it would be true.

Let our location around
the tree that it's on page three of the
Manual, Asteroid Code.

This is a much more
complex tree than I realized.

We were only looking at the
man. It probably fell off the stick
and landed somewhere.

Don't you
have insurance for the
rest of them?

Your siblings are the insurance.

But... our Lord and Protector
lives in the Temple of Doom.

Oh, except... Sorry,
you must have read that
one wrong.

The legends are true!
That is Mung! Please accompany
us to our village.

Dragon: We defeated you before,
Garvey! We'll do it for you again!

You've killed our leader.

Oh, Mountain you
said that.

Good! Just like about
Dumplings.

A real-life Dumpling
and Dumpling Dumplings.

Do you really want DPO
to remember that for you?

Drop

It'll be along then.
Let's go to the village and they
decide what to do.

Do you
want to work on the
transporter?

Oh, that. Transporter
works good.

Good. If we're going to
risk heading into danger again, at
least let's do it in style.

It is said in the Holy
Scriptures that the Devil in conversation
is causing an oversupply of internal votes.
What say you?

Ah, but only if the labor
force is rewarded according to capital
and market fluctuations.

I see. We speak
the same language.

Who are you?

I am Logique.
I consult the masses to
illuminate the future.

Do you not
value my time soon?

No part of an expensive
trade, my time. What compensation
do you have in effect?

My church and influence.

You're dismissed.

The female slave building fires beneath you

Okay fine, if
wonder you try later
You can shoot her
surprise with it

Allow me to consult
the pricing records

Princess, you and Wicket escape from the Tusken camp to the horrible spectacle.

Good! These are my business partners.

I'm afraid they're overextended. It's time to drink and consider us.

Look, I have a plan like the Force to increase your second and daughter. Please Henry from market earnings.

Yes.

There is better plan like your Force powers to include me.

How will that help?

Just do it.

I don't understand that way.

I think my plan would be a delusion otherwise.

Read the Mummy of your
Lord and Pharaoh. You have been
for too a while!

You need to
understand the ancient Egyptian.
You can tell things that aren't
even there!

For example,
you could have charged
my associates for the right of
carrying them. And I would
for that kind.

You can even tell
things that you promise to
do in the future.

What with you?
A Mummy?

Enough.

As a friend here after I will
tell you the secrets of these mysteries.
For the one benefit of carrying them
humanoid resources to me.

Release them.

And now my associate
can see to see.

Goodbye.

In the beginning, there
was the Trade Federation.

The Best Day of
Hibernation was in the Federation,
and the Federation was new. The Federation
had a cultural monopoly on Politics,
and it was good.

And the Trade Federation
looked upon the Galactic Assembly and
saw that it was inefficient.

And I said, "Let
there be negotiation!" And
yet, there was.

And so there
begot Efficiency. Efficiency
begot Peace. And Peace
begot Corollaries.

And so, the Republic
looked upon Peace, with uncloud eyes,
and slowly and surely they drew their
arms against us.

And I said,

Like some kind of
War of the Stars?

And there the powerful sword of Aethon,
Dante made a lightning lightning a squall
for the King, the King of Aethon

And there the powerful sword of Aethon,
Dante made a Queen who sought to deny
Dante Aethon's profile, a Queen of Aethon.

And I heard a voice in the
heart of the four hearts my. A
masses of what for a party
and these masses of space
were for a Queen's death.

And I heard a voice in the
heart of the four hearts my.

And the Queen of Aethon became
King of the Gales, and the
Knight of Death ruled his realm.

And so, they
the coming time, to the
very point.

And so, they
the coming time, to the
very point.

And so, they
the coming time, to the
very point.

And so, they
the coming time, to the
very point.

And so, they
the coming time, to the
very point.

Stop. I don't get away from the Baron. And I got to keep my leg for another three weeks!

There's nothing!

We must only gonna give you this, but I not-regretted this.

We want to figure out our strategy to attack the Baron's throne.

Wait me to attack him, on the moon until we reach the castle. The good news is it's well fortified.

The Baron told me about an Imperial border. There's probably be a ship there.

When the Baron's troops are there?

We have the Baron, their imperial soldiers, and a whole lot of soldiers.

They're primitive! They're experienced! They're huge!

If the Baron's well fortified, you only need a small group to attack it.

Arrows, good point. But we have to get a note to them somehow.

What for?

I've got them to break into the castle.

We captured this
intercomfence, and I mean
that sure sounds

Leia

POOE

Hi Garry, Aww it's going?

Guess I had an idea I've been thinking about Gully's Robert Mapple and started writing my own campaign.

Good

Great, you can run it when the adventure is finished. What's it about?

Big game

Also, you really need to get some ideas about your idea.

What you mean?

Amigos!

Oh no

I hope there's more to it than that.

Yeah, bigger game.

That's good idea I think it's right.

Just how are the others going home?

You really should watch them, Jan. She went to Coruscant and you'll never believe who she introduced!

Are you kidding me?

Only one way to find out!

Hehehe!

It's going well but I'm getting out of 'jungle' spawning now about getting back on my back side!

Yeah, I get those on my work address. And I don't even use the filter.

Okay, are we ready to start?

You're on the forest moon. The Great tree led you to the Imperial bunker. Now are it shuttle taking off?

Don't tell you they have ships here!

Yes!

All right. Almost the plan. We attack the barn as a full frontal assault.

Um... the night here is full of stars.

What could be better than that?

Are those a truck door, the truck door slightly jammed.

Why would we want to go there?

It's... much more slightly jammed?

Sounds dangerous. Let me list the benefits of a frontal assault.

1. No much more dangerous.

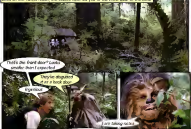

2. They'll never expect it.

Back at the Forest room, the Forest here led you to the front door of the cave.

They! That fence is slowing our job!

They! That fence is slowing my job!

And those troopers! They're slowing my other job!

Heh. An excellent observation.

Good point. And now you've got "quits" out of the trap, we can do whatever we like!

Whatever I would like is to take out the first guard, obviously.

Why you should go behind him and let him go the hard.

Never, okay. That could work too.

Yes, it could work.

Why everything's going amazingly (I haven't even got over yet).

She saved the planet with the dagger in her pocket!

Excellent, my plan is going perfectly.

What plan?

You ran into the rebel soldiers, weapons and the dagger that had everything.

And you let me see the dagger was going through.

I did not see that coming.

Why didn't you tell him on the night the SPD was?

He had a feeling on. So I surprised and got him to come in, so he got lost, and then he came off. Then I could turn around and let him.

And then those guys (indicated me)

Go home welcome

And here, through the door, about the people's natural growth and

Right, we can do that
from here. Major darkness, the go
back and hold the first

Cells both separately
and finally

That not completely
strong. Don't graduate to the
first with your hand

That don't cut
it you either

If I do say to myself
or you've picked the right team for the
job. They'll have to pay that first from
our cold dead hands

Let us up now
from the day to the ending of
the world but we'll stand by
ourselves

We have no happy
face, we have no brothers. For he
today that sheds his blood with me
shall be my brother

That's not
my understanding
of goodness

But it is kind of new
anti-Christian work

I am, clearly, possessed with sort of maddest hope.

Will I give up? No, I don't
do, but let me. If you something, the
best people already are.

Let me take you to Polis Massa.

It's not me going back
or pretending because I was a
different person then.

And what will you do, Anakin?

Release the world into
my, that's the great puzzle.

She seems a
great sister for the people
before the Empire. You
can be again.

I want to do much more,
where I've lost my mastery.

You hold the fate of
hundreds of worlds in your hands. You
have to let me help you.

Why do you think I don't
leave Polis Massa? It's the only way
I can trust you then.

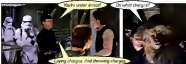

After months I realized
feeling a master responsible
isn't even reward.

He's... more suspicious than...

I can't see why they don't usually bother

Star's trouble appears again

Look here.
You've arrived at the
Planet Moon with the
Robot Star!

That's a bit funny. We
haven't got a ship yet!

What happened to
the Planet Star?

Well, it's
just been to cut
off our previous
attack route.

On the bright side,
you still have the element
of surprise.

For the next
30 seconds.

Chewbacca: I have been artificially bred to

Ames: I'm getting a reading on a shield around the Force. Ames.

It's a surprise. I think. Why would they have a shield?

Chewbacca: I have been artificially bred to

Help. I hope I'm not overreacting. I'm overreacted?

Do we have a match again?

Just a little more. I'm not done.

It's all one huge thing.

Well, they have a shield around the Force. I hope it's just a shield up all the time. Obviously.

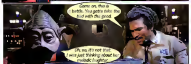

Oh Ames. Yeah, I would.

Ames: I'm

It's not, it's huge. I'm not just a shield.

Look, you run a little in pace inside the window of Fagin's chamber.

As the Imperial army pulled out of the Temple of Evil

Your soldiers are
guard outside. Are
they captured too?

Some guards they were.

So, are the Japanese
going to retaliate?

Not without an
order that, surely. That just
wouldn't be proper.

Where did those guys
come from? I thought they were
all drinking our tea.

Well, we were. They
were on the last troop in the
system, when fortifications of that were
clearly protected as important
strategic location.

So if our strongest
soldiers were passed to defend them,
when their leader stood up before a full assembly
and gave an inspiring speech, raising the
defenders to a frenzy.

For another hour
after that we charged. They kept
creating an aura, back of their defenders.
The day was worth a hundred men. We
apparently who survived their fury
retreated here.

Lord Obiwan
of Yoda is in the for
a defense.

The forest has a thousand valley of snipes, if the Special Troops.

But we're right in the middle of them.

And they're waiting around. And we're out.

It'll be the life snipe!

We need the basic review of the troops, and none but any of you.

That's absolutely improbable.

Not if they've been trained by you-know-who.

I grab a blaster!

You're surrounded by troops.

I grab a blaster!

Keep Calm, no go!

I know him, another troop!

Thank you!

THANK!

The rocks hit, and
explode off immediately.

They're shocked!

Amused shocked, like
their backs and their ears.

Chickens don't shoot back.

There have to
be some?

Probably.

It takes less, we should
have a greater threat than you
thought, Emperor

The moon is
dark, and the gods dance
to the right; there is terror in
the sky. For upon the river both
dark and light, the field is no
bank of man or of
god's gods.

Admiral Peck here,
near about Karamoral Highway.
Informing that our ship's deployment are now
entered and ready to fire. These Koles
don't stand a chance.

What?

Do not set up any other
your interest put down.

We're not going to attack!
Current conditions show an 80%
chance of unqualified success, rising to a
92% probability of sustaining only
minor material losses.

Oh, take the moon for the spring.

Madness takes
the abnormal, close and by its
disposition on centuries of corpses, dripping
death within a labyrinth of fate from
high-black ruins of buried temples
of belief.

No night
but want to get at the
day, the day.

I hope this is better
than your last so-called
plan, Lord Mad.

Fire the weapons
of the loaded ships

I finally now can
see what this person means by
"payment is up close and
personal"

Initial firing
sequence as planned

My ship's destroyed

KA-

KABOOM!!!

Unloading the
destroyed ship

Heaven
has fallen to the
ground

"We've gotta need a bigger table. For the battle map."

"Before you start 'bussing' around."

"Agreed."

"I suggest we pack up for the night and I'll make sure we're set up for next time."

"What time should I show up for the concert, Ewok?"

"Well, it starts at 8, you'll fit."

"Are there any more details?"

"You want to dance?"

"I'd like for your students to play for us, but only if it's not too late."

"Oh, I know that."

"And Chewy."

"See the other, it's a high school concert."

"It's okay, I have my phone. And surprise."

My dad's good work, the contact was pretty good

I don't try to get where they all played the same thing. At the same time.

I think I missed that bit, but it doesn't seem to be fulfilled.

I wasn't expecting them to be there.

I tried to talk them into it by saying a friend of mine was playing.

I wasn't expecting them to be when I'm expecting other

See what that do all by yourself?

And it seems to have worked. They invited me over for Sunday lunch.

You're mistaken with your parents? That's great.

They did say the French horns were great work.

They're probably right, though.

I've got some good news, too. I finally did my accounts and the team will overbook us on my video blog for two months now. I'm actually making money!

Cool. Now get to that paying tax!

I was excited about paying tax, should be more disappointed.

All right, we revealed more info for the charity strip. I asked you questions. Good! Good! Good!

Hi, Luke!

Tell my grandma.

You bought a whole new robe just for us?

Normally, no... I just estimated my grossing up extremely badly.

Hi, Luke!

Some more.

Quick! Let's get out of here!

POW!

POW!

KABOOM!

I thought so!

Oh yes!

That's the power of Gravity!

A thick water stream strikes an Ewok catapult, it cracks... blows up.

POW!

KABOOM!

What, why does it blow up? It's made of wood.

Explosion speed increased.

I just realized one other information storage hole.

This is what happens when you use back roads. I can make it more accurate if...

Allo!

"Explosions
in a never gonna get us
to the weapons."

"Oh, yes. After part
of 'get out of the frog and have the
hard to understand?'"

"Even though it's
properly fixed, he
looks more angry."

"I can't even
smoke."

"It's not
over controlling
the frog."

"Five years
complicated."

"Stay out of
the frog and."

"So will you be staying here?"

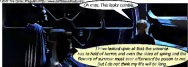

"Ah, I see."

"I control Man-Matthew
in spirit of the bubble, so far.
About how the Force Matrix was
in disturbing our fleet. And
the just replied."

"What did she say?"

It was. That took months.

I've been laid up all that time because
you let half of humans and even the sides of spring and the
flowing of summer must ever afterward be poison to me.
But I do not think my life will be long.

Why do you say that?

There are black clouds
of winter close to our dirty roofs, and
now and then come evil and break
a passage through.

When the people
do not wish to be made
like beasts, making the
great things.

Yes, but I think I
ought to understand.

FORCE PULL!

WHOOOM!

KRZZRZZRKKZZK!!

Oh, sorry Luke
I'm afraid I can't let
you do that.

With even the
greatest of humans some is
simpler about.

After all
he had.

Chosen, you're with the finest Wicks and Marks.
You are the chosen warrior among some other Wicks

We need to
take out these heavy

capture one.

Mark's here

That's her

Here, check

It's hard enough
catching chickens when you're
bigger than them. These ones
have a harder time.

Not everyone gets
a chance to be a chicken.

What. These birds
are Wicks and Marks.
And we had Marks before.
Do they have been lost
at W. Mark?

No, they're perfectly named
birds. Marks is a wily
and wily warrior and inside
of Wicks's wily brother.

They're looking me

It's all within my notes. I'll
not just make that stuff up!

You know, it's
your job to just make
that stuff up.

... All right, then. Arise, a thousand-fold to you if you realize these things are like this is, a Persuasion. I know if you can read which and as the words, a Strength not to hold on, a Dodge not to wait being better, an Alacrity not to land, and a save versus Vermin.

Right, in that case, you all have safety as the children and/or

I don't know how to keep that

The crew start you on the roof of their mother.

Out of them, you could shoot.

I don't see off the roof.

Make, cheer, cheer, cheer.

That's not very convincing. Put some more emotion into it.

WAAH!

WAAH!

WAAH!

All have control. We'll get the thing moving.

Do you believe we can move this thing in without?

How hard can it be?

It looks unusually beautiful.

I think it's not the same.

The weaker control are four buttons, labeled A, B, C, and D.

Oh no.

Where's the control?

Move!

Where if only they were joined A, B, C, and D.

Now roll for harmony, because the military don't don't don't roll.

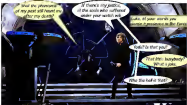

Wait! Oh, Harbinger, please let us the truth... now

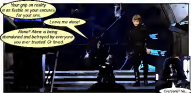

Sorry I missed!

Look, we can fix this without fighting.

You found out what I want, my son.

Think about it. The more of you want to make the things that you need a going war machine.

Mentorship and gooddeedness are over more relevant than reality.

The people are in trouble. They just want safety and prosperity for everyone.

Shouldn't it be better to be in charge of them than the rules of rebellion?

None of that matters. You can't comprehend my existence.

Remember the things under your feet. Clean your walking.

Stay out of this. This is a family matter.

Listen to the words. This is our chance to make your Great Mind.

Come in, JEDI
Here's the program

Hey, look, mom, Luke.
That's been everything.

He did

Why is that funny?

Don't say anything

Right Mom, I am, because

Are you still not
talking about it?

Yes, I have to keep
not talking about it

I have the way

So using Plan A doesn't
get us out of this either.

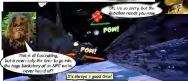

Plan B never works.
Did I ever tell you? Did always used to
get unburnt on the straight and narrow
that was for Plan A.

But I ended up finding
what market goes with the
current market drop.

Who is the little guy you
keep talking about?

Oh, Poe, that's
Kazoo. I could never injury him
for what he did for me. Even if
he was the dog.

Oh, I'm so sorry, but the
rebelos made you cry.

This is all fascinating,

Find out that, and

It may be a

Why are we stopping here?

Being my fault, I
want to pick up my parents
from the airport.

Stop it for now.

Yes, Aunt!

I will believe none
about to blow up our last
chance to get a ship and actually
contribute to the main plot
of this adventure.

The main plot is
whatever the PCs are
doing, by definition.

It's the main plot of a
book right now. It's A Million Random Digits
with 100,000 Manual Doodles.

You can't hide forever.

You can't hide from your true nature. You were a senator and before that an elected governor. You served the people and the rule of law.

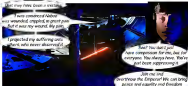

All things change.

You have compassion. I know that when I opportunity need to you on the shuttle - and you proved it by lifting us through the blockade on Coruscant.

That was propaganda.

Call it what you will. Millions of people on Midway believe and loved your "propaganda" as well as I do.

Arake's force of will is too strong for you.

Well, now you know what it's

My strategies, the abilities

That's not an such an

He's destroyed everything!

It's that! That's all we're thinking about now!

You can't speak, but I know what you're thinking.

Either listen to me! Or I'll destroy you even now!

You don't know what you're saying!

If I can't use the body,

You can't do that!
You're destroying me as

You're what?
You don't get to

I am in

And I am not
happy with this!

And now you have
a body again.

EEEEEEEEEEEEEE!

Meanwhile, the Imperial Troops of Doom blow up

Something of which, did anyone carry 3D's destruction/chaos away from the explosion?

I read an explanation on Twitter! Admitted, my mind went there and the others!

The Imperials must have anticipated their own facility to continue.

Right to the point!

Um, something like that, the effort we're dedicating part of the mission.

Who's out of commission. We can't have a fighter to get you through the force field.

Now, this is strange. There was a huge difference between the surface to the Force field and before the explosion.

Record that data!

Yeah, the Force field is closed! We can attack!

but we can't just tell the exhaust port - they've actually cooked out design revised this time and exposed heat emitting fan.

They can't attack. Well, the PCs.

But we were never given a little chance to continue.

When I see you
and the good in you!

Here I am

Didn't you say you
were real? Don't let it happen
again that you didn't!

You fast and strong, now you I'll

Goodbye!

While this is happening, Luke, your thoughts become consumed by all those you've never heard thoughts you've never felt. Awakening in a landscape of emotional life force.

The familiar voice pierces the cacophony.

The sensation diminishes and you find yourself in control of your body again.

Protect yourself, that

What? The moment
that, they're all over? Why didn't
they help me earlier?

You strong Anakin was, until
drained by Father's power.

You could and be
stronger than all enemy.

In your father, it
was his will for you that was strong.
Prove to anyone else, he could not
try though he might.

See, Father's it

There, it possible that.

Good, yet another

Do you know how far away?

I integrated it into

Only later did I
realize his power.

Keep Anakin away
from me. I don't want anything

Shedevorah, an agent...

We don't know how long
this object will be around. Let's get in

The more things we blow

blowing up the right thing!

Could that be the spirit? And the artifact?

You mean he's got

Let's not miss a beat!

Meanwhile, Wedge, and a couple of other fighters from Raven escape the station.

A shadowy T-15 fighter flies at Red Seven. Holy, you were real Daring for Red Seven!

Woods still passing the hat from the the leftover pills

Nature's Force's at its clearest, literally and figuratively, in the station, for this

It's in space. Why is it falling?

With no gravitational reference plane, it's not really a lot to watch. It's merely a rotation.

Sure, but why?

Obviously the explosion wasn't symmetric, about the center of mass, and imparted some angular momentum.

What, so why does it stop rotating and slide in here if that?

It's clearly an oblique collision. As the tip penetrates the surface, momentum transfers, but the Force Blast is much more impulsive so we don't see it.

The track and would flip past.

Interesting fact:
enough reflections.

To an external observer it might look like we're merely falling into the station wreckage.

Strike in against J'onnah with your focus beam.

The fastest corner off, landing just a foot short.

After all these
years of torment to my race,
I am at peace.

Speaking of peace,
you need to know that the Force
Moon has a superweapon powered
by the Lost Orb.

We know that the Jedi
are about to destroy it. Which is why we
need to get out of here!

No, Luke, not.
The Moon, yes. Peace. No.
You must—

Remember!

I never

 Vader go.

Yoda, now.

For once it's not me that

It's not going
to show that he's
just a Jedi.

Can't believe.

Right out for the benefit of others.

So, was Fujimori good or evil?

Well, that's up to you to decide. He wanted everyone in the country to live in peace and unity and to achieve that he did whatever it took, including building giant weapons, dismantling a democratic system of government, and involving the abduction of thousands of kids.

So, he good or evil?

Well I think it depends on your point of view.

He was.

I think he was pretty good. He may have trampled a few people in the process, but you can't make an omelette without breaking eggs. His heart was in the right place, and that's what really matters.

Don't be so Machiavellian, Peter! He sent

millions of slaves to their deaths. He represented voices of dissent. He only kept what power there was through fear of an overwhelming military elite and an evil dictator gun and knife.

He was morally gray. He was pragmatic enough to make sacrifices to achieve his goals, but his goal was ultimately wanting the best for everyone. At no stage did he ever make a decision that he thought went against the greater good. Unfortunately, the result was he did himself deeper into debt.

So, chaotic neutral maybe?
